

# Fundamentals of Machine Learning

## Course overview

---

Jan Platos

November 25, 2021

# Course overview

---

# Classification criterion

- Task on the Exercises (10-20 points)
- Exploration data analysis (15-30 points)
- Clustering (12-25 points)
- Classification/Regression (12-25 points)
- **Overall** - Minimum from each task and at least 51 points together.

# Requirements and expected knowledge

- Hands-on experience with Python and/or R language.
- Basic mathematical elements (numbers, vectors, matrices)
- Basic mathematical operations (sum, multiplication, division)
- A "common sense".
